

The logo is centered within a teal-colored map pin shape. The map pin is set against a dark blue background that features a faint, light blue grid pattern representing a city map. The word 'Wirks' is written in a dark blue, cursive script font. Below it, the words 'Moving & storage' are written in a teal, sans-serif font, with 'Moving &' on one line and 'storage' on the line below.

21 Items NOT Allowed on Moving Trucks
For safety reasons, learn about what items are not allowed on our moving trucks.

22 Preferred Vendor List

From door open to door close, we bring everything you need to move with confidence.

Wirks Moving & Storage was founded in 2009 with a simple goal: Let's be the best we can be. Our founders have over 45 years of combined experience in our industry and learned the ropes from the ground up. They set out to offer a high-quality moving experience that was stress-free, and for over a decade, we've been doing just that. We've serviced thousands of Atlanta families, and we are excited for the opportunity to help your family, too!

We believe that a company's greatest asset is its people, and we have hand-picked our team of professional movers and packers. All our crew members are drug-screened and background-checked, and we go above and beyond industry standards to ensure we are sending highly-trained professionals to your home. By providing ongoing training, higher pay than many of our competitors, and a company culture that rewards excellence, we can retain the best talent in the industry.

Our friendly, professional team's #1 goal is to achieve total customer satisfaction on each and every move. We set high standards for performance and encourage customer feedback. Our qualified move coordinators will oversee your move from the initial contact to the post-move follow-up, asking all the right questions to ensure there are no surprises on move day.

The full-service experience that we offer includes shrink-wrapping and padding your furniture to ensure a damage-free move. We protect hardwood floors with neoprene floor runners, wrap stair rails, and pad doorjambs. We ensure that your home and belongings are well cared for during your relocation.

We aren't simply great movers! Our team of skilled packers can help with as much or as little of the packing as you need, from china in the kitchen to artwork on the walls. And when the move is done, we also offer unpacking services.

We operate a 30,000-square-foot, temperature-controlled warehouse in Marietta. We offer long-term storage for customers going overseas and short-term storage for those in-between homes. We'll take the time to prove that we are the right choice to coordinate and carry out your relocation, whether you are moving across state lines or across the street.

Our commitment to you

Value
Knowing in advance your price with no shenanigans or price increases on move day. NO SURPRISES!

Communication
Our office staff will always keep you informed at each important milestone and is always available to respond to your phone calls quickly.

Assurance
Delivery of all services as promised without hiccups, delays, or excuses. We don't make promises we can't keep.

Empathy
With over 25,000 moves under our belt, we understand how you feel. We take your stress and nervousness away.

Exceptional Service
Customers vote with their money when they choose us, and we appreciate those hard-earned dollars. Since referrals are the lifeblood of our company, we want our services remembered and shared with others.

Our Services

Local Moving

We offer hourly or binding flat-rate pricing. We think our customers should have both options and be able to decide for themselves which option is best for their moving needs.

Long-Distance Moving

We give binding guaranteed pricing for all our long-distance moves, giving you the peace of mind knowing that there will be no surprise charges on move day.

Temperature-Controlled Storage

Wirks Moving & Storage has a beautiful, clean, 30,000-square-foot, temperature-controlled storage facility. We offer long-term storage and short-term storage options. There is no requirement for length of time to store, and we bill you monthly and pro-rate your final month.

Packing & Unpacking

We offer full- or partial-packing services. Our experienced packers are efficient and reliable. We use durable supplies and handle your belongings with care.

Crating Services

Marble tops, glass tops, paintings, sculptures, and other fragile or expensive items transport best when crated. We'll build a custom crate to move these prized possessions.

Specialty Item Handling

We are experienced in handling antiques, wood furniture, sports and training equipment, musical instruments, pool tables, taxidermy, sculptures, paintings, and fragile items. We can safely transport, store, and deliver baby grand pianos, upright pianos, grand pianos, and digital keyboards. Our team will have the tools and experience to disassemble and reassemble your piano, if necessary.

Sleep Number® Beds

Sleep Number beds require special care when disassembling and reassembling. Wirks Moving & Storage can handle this task at an affordable rate.

Our Fleet

Our fleet of vehicles includes 26-foot, 28-foot, and 30-foot moving vans. Regardless if you're moving a small home down the street or a large home across state lines, we've got the right-size truck for you. Our fleet is well-maintained and DOT compliant. We inspect every vehicle before leaving for a job and after getting back to the warehouse, so we'll be on time and ready to go on move day!

Wirks handled our local move from Kennesaw to Acworth. It was an outstanding experience.

Britta was fantastic at setting up every detail of the move! Tonya packed the boxes and did a top-notch job. Many thanks to Joe and Andrew who loaded and unloaded the truck and assembled everything. They do a great job and it's a great value. Thank you!

– Derek Meyer

Packing

Packing is one of the most important parts of preparing for your move

If you do it right, it will ensure a safe, secure, and incident-free move. On the other hand, if you do it improperly, no matter how careful we are when moving your boxes, you still run the risk of damaging items throughout the process.

Let us send a professional packing crew to come out and pack your items. Our crew will have the materials needed to pack your items safely. This includes crates, boxes, packing paper, and tape.

We can pack as much or as little as you would like. We will handle your belongings with care and label everything. Our crew takes their time and ensures that everything is packed properly, and they only use the material they need.

If you'll be packing your own items, we offer materials that can be delivered straight to your door. Ask your salesperson for an estimate!

Small18" x 12" x 12"

Heavy items such as books, records, or tools travel best in smaller boxes.

Large18" x 18" x 24"

These boxes work well for lightweight bulky items such as pillows, towels, dry goods, and baskets.

Dish Pack18" x 18" x 28"Double Corrugated

These extra-strength boxes work well to protect fragile items such as dishes, china, glassware, figurines, and other small valuables.

TV & Extra Large TV

These heavy-duty boxes adjust for TVs up to 65" but less than 80" and include 4 foam pieces that fold in half to provide 8 points of protection around the TV.

Medium18" x 18" x 16"

Pots and pans, kitchen utensils, stereo equipment, shoes, toys, clothes, and small appliances travel best in medium boxes.

Extra Large24" x 18" x 24"

These boxes work well for lightweight bulky items such as comforters, tupperware, and toys.

Mirror40" x 60"

These boxes are great for protecting mirrors, paintings, small glass table tops, glass shelves, and other valuable yet fragile objects.

Wardrobe18" x 21" x 48"

These are ideal for clothes on hangers which can be taken from the closet and hung directly on the box's bar. This saves you the need to iron or clean your clothes after the long move is completed.

What a great experience!

From the quote to the move, everyone was a pleasure to deal with and responsive. Tonya, Danyal, and Jock packed us up and they were friendly, polite, efficient, and all around a great team. Our movers, Joe, Sam, Alexander, Antonio, Miguel, and Elvi were careful, quick, and friendly. We felt comfortable putting our move in their hands. We would recommend to friends, and we would use them again if we needed to move!

- Vivian Harris

We were very impressed & pleased by the professionalism and teamwork shown by this crew.

Lawrence, Andrew, Sergio, and Elvi did a great job in less time than we expected! Would highly recommend to anyone. Miss Tanya & her packing crew worked efficiently and gave me peace of mind that my breakables were being handled with care.

- Renae Cureton

Packing tips

- ✓ **Don't save all your packing for the last day!**
Begin packing items that won't be immediately needed well in advance of your move. It's a good idea to jump-start the packing endeavor!
- ✓ **Proper packing is the most important thing you can do to save time, money, and aggravation!** Use common sense. Pack heavier items like books and canned goods in smaller boxes. Pack lighter items in progressively larger boxes. Never make a box too heavy to handle!
- ✓ **Disassemble items that need to be taken apart and carefully save any hardware involved.**
Put the hardware in a labeled bag. If it goes with a desk or dresser, tape it inside a drawer. If it goes with a bed, tie it to the bed rails.
- ✓ **Don't pack your toolbox or checkbook.**
You may need to write a check or use some of your tools on move day.
- ✓ **Designate a place for items that will not be loaded in the moving van.** Car keys, important documents, passports, driver's licenses, birth certificates, etc. should be transported in your personal vehicle.
- ✓ **Thoroughly wrap fragile items individually with paper, bubble wrap, or foam wrap.**
Glassware and china should be wrapped securely to prevent clattering within the box. Plates should always be well-padded and stood on their side in the box rather than laid flat. Glasses are stronger when they are packed standing up rather than laid on their side. Be sure to line all sides of the interior of the box with plenty of paper.
- ✓ **Take special care with small items.**
Make them more noticeable by using brightly colored tape to distinguish items. Bundle small items, such as silverware, rather than leaving them loose in the box.
- ✓ **Do not interlock box-flaps together.**
Use at least three strips of tape to secure tops and bottoms of boxes, making sure to extend the tape at least halfway down the sides of the box for added strength. Taping reinforces the strength of the box and can easily be cut with a blade later when unpacking. Remove staples from boxes to protect the surfaces where they may be stacked.
- ✓ **Mark the contents on the top and sides of the box.** Indicate the room or area where the box should be delivered (kitchen, living room, etc.). You can use color-coded tape or stickers on the box to identify what room to put the box in at the destination. Make sure the writing is facing up so you know which side of the box is up and which side is down.
- ✓ **Glass frames or mirrors should be padded and packed in picture cartons.** Ensure there is plenty of cushion on the edges.
- ✓ **Lamps and lampshades should be placed in separate boxes from each other.**
Wrap each shade individually with clean paper. Do not use newsprint, which can permanently mark the shades.
- ✓ **Electronic equipment should be padded and boxed.** This ensures knobs are not broken off and the finish is not scratched.
- ✓ **Stack all the packed boxes neatly against walls and create clear, unobstructed paths.**

What to Expect on Move Day

Furniture disassembly and reassembly

Wirks Moving & Storage offers a full-service moving experience.

Our team will arrive with all of the tools and knowledge necessary to disassemble any furniture necessary. We'll wrap each piece with moving blankets and keep track of the parts. At your new home, all your belongings will be reassembled and placed exactly where you want them.

It's just another way we can make move day less stressful for you and your family.

Protection for floors, doors, and railings

Don't stress about the interior and exterior of your home.

Our professional movers will lay down neoprene floor runners, protect doorjamb with padding, and wrap stair railings with blankets before the move. Your crew leader will do a thorough walk-through before and after the move. We'll make sure that the interior and exterior of your old and new home stay clean and beautiful throughout the move.

We wrap all your furniture with care

Protect your furnishings from unnecessary damage!

It is important to wrap every part of every piece of furniture that will be moved. We take time to wrap each of your belongings with a high-quality moving blanket. This includes legs, tops, and sides. This ensures that your finishes are protected from scuffs and scratches while our team is handling everything with care.

- ✓ **Prompt Arrival in a Clean Truck:** Our team will arrive on time and ready to work.
- ✓ **Professional Introduction:** Your crew leader will introduce himself and his team before starting.
- ✓ **Interior & Exterior Protection:** Our crew will be laying down neoprene floor runners, protecting doors & doorjamb, wrapping corners and stair railings, and taking any additional steps to protect the home.
- ✓ **Packing, Wrapping & Padding:** Crew members will wrap upholstered items in plastic wrap. We secure moving blankets to all of your furniture. We'll pack any items necessary in our sturdy boxes and label each container's contents.
- ✓ **Protect Mattresses, Glass & TVs:** We use mattress bags to protect your mattresses and box springs. We use mirror cartons to protect glass-top and glass-front furniture. We have special TV boxes to ensure your TVs are safely moved.
- ✓ **Disassemble Furniture:** We will have all of the necessary tools to disassemble your bed frames, tables, shelving, and any other furniture, if necessary.
- ✓ **Load Your Belongings:** We'll load all of your belongings on our truck in a secure manner to avoid shifting during transport.
- ✓ **Walk-Through:** We'll remove all of the interior and exterior protections. Your crew leader will do a walk-through to ensure that all of the items we are transporting have been loaded on the vehicle.
- ✓ **At Your New Home, We'll Start by Protecting the Interior and Exterior of the Property:** We'll unload your items and deliver them to the correct rooms.
- ✓ **Unwrapping & Debris Removal:** Our crew will unwrap mattresses, TVs, and glass that was protected for transportation. We'll take the packing materials back to our truck.
- ✓ **Furniture Reassembly:** We'll reassemble any furniture that we disassembled and set them up in the correct location.
- ✓ **Unpacking:** If you've opted for unpacking services, we'll unpack your items at this time.
- ✓ **Final Walk-Through:** We'll remove all of the interior and exterior protections. Your crew leader will do a walk-through to ensure that all of the items we are transporting have been loaded on the vehicle.

We have worked with [Wirks] twice so far within 2 years; every one of our experiences with them has been great.

During the move, Bryan led the team like a well-oiled machine. He attended to all my questions and made the process very smooth. All 4 team members were professional and did their job expediently. I would recommend working with them anytime.

Storage at Wirks

Temperature-controlled storage with 24-7-365 onsite security

Keep your belongings safe and in good condition.

Who better to entrust with your belongings than the very people who took care to pack and remove them from your former residence? For your convenience, we can deliver the things you've set aside for storage straight into our storage facility instead of dropping them off at your new house. They will only take up precious floor space or gather dust in your new garage.

1 Your items are inventoried & delivered to our temperature-controlled facility in Marietta.

2 We move your belongings to a dedicated storage vault that is clearly labeled.

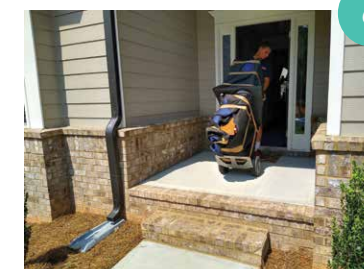

3 Larger items, such as sofas and treadmills, are clearly labeled and stored on racks.

4 Your vault is stored in our facility until you are ready to have your belongings delivered.

5 Our team unpacks your vault, verifies the inventory & loads everything on a dedicated truck.

6 Your belongings are delivered, unwrapped, and placed exactly where you want them in your new home.

They made a very hectic time bearable.

Our move was twofold, with the bulk of our belongings going to storage and the rest to an apartment as we waited for our new home to be built; it was done over two days, so the stress level was doubled. Our crew members on day one were Lawrence, two Joes, Q, Dee, and Will, with an additional member on day two whose name I did not get, unfortunately. These guys showed up and showed out! They arrived on time and hustled the entire time on both days. They were incredibly courteous and professional as they went about doing an excellent job.

– Rosalind Jackson

Items NOT Allowed on Moving Trucks

Finding out your mover can't move some of your items on move day is stressful

To avoid this stress, do your research and be prepared for what's to come. Arrange for the safe transport of the following items before moving day.
